

Close-To-Me Keyfob

“Close-to-me” is the Italian solution to guarantee the “SOCIAL DISTANCING” of one meter.

APPLICATION

- Social Distancing
- In Door Localization
- Access Control

PRODUCT OVERVIEW

“Close-to-me” is the Italian solution to guarantee the “**SOCIAL DISTANCING**” of one meter whenever is worn by two or more people in the same room. The system is based on a wearable device with integrated BLE transmitter and receiver, based on 2.4Ghz, is generating a “radio bubble” - low frequency non invasive - around the person. When the safe distance is not respected, an acoustic sound and vibration indicate that you are below one meter.

SPECIFICATIONS

Operating Frequency	2.4GHz	Internal memory	5000 records
Modulation mode	GFSK	RF Power	3dBm [attenuation software settable]
Antenna	Integrated Linear Polarized Antenna	Battery	220mAh@3V CR2032 Replaceable
Compliant Standard	Bluetooth 5.0	Dimensions (mm)	46 x 31 x 11
User Interface	1 button, 1 buzzer	IP	IP 40
Certification	CE according to ETSI EN 300 328
